

Plants in the City: Virtual Herbaria Provide Clues to Our Past and Future

Contributed by aneely on Mar 07, 2019 - 09:34 PM

On March 29-30, 2019 we are arranging a symposium/workshops at Rutgers University – New Brunswick, NJ on the topic **Plants in the City: Virtual Herbaria Provide Clues to Our Past and Future**

Join the NSF-funded Mid-Atlantic Megalopolis Project for a free research symposium and series of workshops around the topic of virtual herbaria and their use in research and community science projects. For complete details [click here](#) for PDF.
